

Dear Physics 211 students,

We hope you are all doing well this week! We're almost done with the semester!

I wanted to e-mail you all to say we will be starting up again next week with Lab 4. Week A students will meet up next week (week 13) and week B students will meet up the following week (week 14).

As a reminder, **your prelabs will be due by 8 AM CST on the morning of your lab session.** In this lab, you will be exploring pendulum motion. **For this lab, you will need some string.** As always, you can find the activity sheets and slides describing all of this on [your Lab Zoom links page](#).

If you have any **questions** about your labs or prelabs, **be sure to post them on piazza** so that we can reach out with an answer for the whole class to see.

Have a great weekend and see you soon for Lab 4!

From,

Sai for the Phys 211 team
