

Final Project Rubric

This is the rubric to assess the final project for your final grade. This is written in a very open manner due to the differences between projects.

1 Project Scope (40%)

- Project goals accomplished
- Development progressed over the course of the project.

2 Code Quality (40%)

- Solution approach is well thought out
- Code is logically organized
- Avoids unnecessary repetition (“Don’t repeat yourself”)
- Use and integrate libraries appropriately.
- Good use of C++ style

3 Documentation (10%)

- Final proposal in `PROPOSAL.md`
- Development documentation in `DEVELOPMENT.md`
- Usage and build documentation in `README.md`

4 Final Presentation (10%)

- Arrived on time with all necessary materials and ready to go
- Show what is cool about your project
- Engaged and paying attention to other students presentations
- Behaves respectfully to moderator and other students
