

## 8.2

# What is a Turing machine

# Turing machine

- 1 Input written on (infinite) one sided tape.
- 2 Special blank characters.
- 3 Finite state control (similar to **DFA**).
- 4 Every step: Read character under head, write character out, move the head right or left (or stay).

# High level goals

- ① Church-Turing thesis: **TM**s are the most general computing devices. So far no counter example.
- ② Every **TM** can be represented as a string.
- ③ Existence of Universal Turing Machine which is the model/inspiration for stored program computing. **UTM** can simulate any **TM**
- ④ Implications for what can be computed and what cannot be computed

# Turing machine: Formal definition

A Turing machine is a 7-tuple

$$(Q, \Sigma, \Gamma, \delta, q_0, q_{\text{acc}}, q_{\text{rej}})$$

- $Q$ : finite set of states.
- $\Sigma$ : finite input alphabet.
- $\Gamma$ : finite tape alphabet.
- $\delta : Q \times \Gamma \rightarrow Q \times \Gamma \times \{L, R, S\}$ : Transition function.
- $q_0 \in Q$  is the initial state.
- $q_{\text{acc}} \in Q$  is the accepting/final state.
- $q_{\text{rej}} \in Q$  is the rejecting state.
- $\sqcup$  or  $\sqcup$ : Special blank symbol on the tape.

# Turing machine: Transition function

$$\delta : Q \times \Gamma \rightarrow Q \times \Gamma \times \{L, R, S\}$$

As such, the transition

$$\delta(q, c) = (p, d, L)$$

- 1  $q$ : current state.
- 2  $c$ : character under tape head.
- 3  $p$ : new state.
- 4  $d$ : character to write under tape head
- 5  $L$ : Move tape head left.

Missing transitions lead to hell state.

“Blue screen of death.”

“Machine crashes.”

# Turing machine: Transition function

$$\delta : Q \times \Gamma \rightarrow Q \times \Gamma \times \{L, R, S\}$$

As such, the transition

$$\delta(q, c) = (p, d, L)$$

- 1  $q$ : current state.
- 2  $c$ : character under tape head.
- 3  $p$ : new state.
- 4  $d$ : character to write under tape head
- 5  $L$ : Move tape head left.

Missing transitions lead to hell state.

“Blue screen of death.”

“Machine crashes.”

# THE END

...

# (for now)
