

Subject: Physics 212 Fall 2021 Final Exam Information (action required by Tuesday, 11/30 @ 10:00 pm)

Welcome back!

We hope you had a fantastic fall break and are ready to finish up the semester strong. **Hour Exam 3** will be proctored through the CBTF the same as exams 1 and 2, running from Friday, 12/3 - Monday 12/6.

Everyone has been signed up for the **combined final exam** scheduled for Wednesday, 12/15 @ 1:30 pm. If you would prefer to take the **conflict exam** instead, scheduled for Friday, 12/17 @ 8:00 am, be sure to sign up to take it in the gradebook (<https://my.physics.illinois.edu/gradebook/>) by tomorrow, Tuesday, 11/30 @ 10:00 pm.

To sign up, just click the conflict exam time in the dropdown box, then click the blue Sign Up button.

Upcoming Exam Information

You are currently signed up to take the following exams at the times below.

Exam Name	Exam Date	Exam Start Time	Date/time you have to change your mind
Combined Final Exam 4	Wednesday 12/15/2021	1:30 PM	Tuesday 11/30/2021 10:00 PM

If you have a conflict with the above time, sign-up for a conflict exam by selecting one below.
Be sure to un-sign-up for any exams you may have signed up for (by clicking the [X] next to the exam) before signing up for a new time.

Choose a conflict exam time

If you have conflicts with both the Wednesday exam and the Friday exam please email Professor Stelzer tstelzer@illinois.edu with your full exam schedule.

The final exam will be proctored by your physics TA's and held in rooms on campus. The exam will be printed on paper with approximately 50 multiple choice questions and a scantron (bubble sheet) that you fill using a number 2 pencil. We will use the same grading as on the hour exams, allowing you to bubble more than one option to receive partial credit. You should plan to show up 15 minutes prior to your exam time to get checked in. You should bring your ID, a number 2 pencil, and eraser and your calculator. The formula sheet will be provided with the exam and will include white space for your work (which is not graded).

We look forward to seeing you in lecture tomorrow,

Angela and Tim (your physics 212 lecturers).
