

Tau Beta Pi Engineering Honor Society

Tau Beta Pi is the country's oldest engineering honor society, and all of its members are distinguished engineers with excellent academic records. The honor society will be offering tutoring in all introductory engineering courses including Chemistry, Physics, TAM, Calculus, ECE, and more. These sessions are put on by juniors and seniors who have excelled in their coursework. The sessions take place in 101 Engineering Hall from 2 - 4 PM, Monday - Friday. They encourage all to take advantage of these sessions whether you need help with specific topics or want to review before an exam. Please visit the TBP website at <http://tbp.ec.uiuc.edu/> for more information and a listing of tutors.
