---

Put together the final version of your senior thesis by combining the revised documents from Assignments 8, 9, 10, 11, and 12. Include both the technical and nontechnical abstracts that you developed for Assignment 12 (*not* the abstract for your final talk).

Due: **Monday, December 14, 9:00 PM**. No late assignments will be accepted or graded. Don't even *think* about asking for an extension unless you are experiencing severe, sustained chest pains or are bleeding from a major artery. This assignment is not eligible for rewrite points.
