

Homework Assignment #7, Scientific Poster Presentation

Present your poster to Department of Physics faculty and students at **5:00 PM on Monday, October 12**, following PHYS 110. Be prepared to explain your work to freshman physics majors, transfer students, graduate students, faculty, and random people wandering through Loomis.

Plan to meet in the classroom hallway of Loomis around 4:15 PM to hang your poster. If you cannot come until after 5:00 PM, arrange with Celia or a fellow student to hang your poster. The poster session will run until approximately 6:30 PM; traditionally we all go out for Papa Del's after the poster session (Celia's treat).

Your posters and presentations will be judged by a committee of faculty, and a "best poster" will be selected. Review the [evaluation criteria](#) to know what to expect.

Due: By 5:00 PM, Monday, October 12. This assignment is not eligible for rewrite points. If you have a class conflict, notify the instructors by October 2.

Total—50 points
